

FRANCHISE INTERNATIONAL

Franchise International works. Just ask...

"During the last five years we have continually advertised with *Franchise International* and this has generated quality contacts and leads for our franchise. We would strongly recommend this very professional publication to fellow franchisors."

Andrew Withers, Managing Director of SFC Express

"Steamatic/BMS Technologies has received highly qualified prospects from our advertising in *Franchise International*. In fact, we have sold Master Franchises in Northern Ireland, Portugal and Spain to highly

qualified businessmen that learned of us through *Franchise International*. We are currently negotiating with several franchise candidates from other European countries that contacted us because of our exposure in *Franchise International*.

"We have been very pleased with the results we have experienced because of our relationship with (the publishers) Franchise Development Services and would highly recommend their services to other franchisors."

Bill Sims, Vice President International Operations of Steamatic/BMS Technologies

"We have invested in *Franchise International* promotions for the last five years and are absolutely delighted with the results for our

global branding and franchisee recruitment."

Fred DeLuca, President of Subway Restaurants
